PROFESSIONAL EXPERIENCE & ORGANIZATIONS

ICT Department Member (OSIS) | SMA Negeri 1 Batang2023 - 2024

- Managed structural digital assets and technology deployment for school events.
- Created high-engagement creative media contents to support student union workflows.
- Collaborated with team members to resolve IT-related issues within the school.

Active Core Member | Doscom (Dian Nuswantoro Computer Community)Nov 2025 - Present

- Contributed actively as a dedicated event volunteer to support internal community tech programs.
- Engaged in peer-to-peer collaborative learning with senior community members to accelerate engineering skills.

Next.js Fundamental Intern | DOSCOM UniversityNov 2025 - Des 2025

- Completed a 1-month intensive bootcamp and workshop track focused on modern web engineering solutions.
- Mastered core fundamental principles of modern rendering, and Next.js scaffolding.
- Built optimized frontend application prototypes leveraging efficient server and client components.

Full-Stack Web Developer Intern | DBS Foundation 2.0Apr 2026 - Present

- Mastered core JavaScript fundamentals and advanced modern programming structures.
- Developed interactive, data-driven web applications leveraging the React.js framework.
- Collaborated on crafting responsive UI layouts and improving frontend web components performance.

Digital Marketing Specialist (Freelance)Nov 2025 - Present

- Formulated and executed targeted B2B marketing campaigns to pitch high-school yearbook and graduation video packages.
- Managed strategic client engagement and built direct pipelines with high-school student committees.

PROJECTS

Front-End Organization Website | peradikharisma.orgFeb 2026 - Mar 2026

- Designed and deployed a professional frontend organization website to scale digital presence.
- Implemented clean code architecture using responsive modern web design principles.
- Ensured fluid interface navigation across multiple desktop and mobile user breakpoints.

E-Commerce & Catalog Platform | purielena.com**Mar 2026 - Apr 2026**

- Engineered a high-performance interactive web application utilizing React.js frameworks.
- Optimized frontend state management pipelines to deliver fluid catalog interfaces.
- Integrated responsive product layout displays ensuring high web accessibility standards.

Barber & Salon Management System | pointcut-hairstudio.com**Apr 2026 - Mei 2026**

- Served as Project Lead and Front-End Developer overseeing web system architecture.
- Built streamlined administrative web dashboards using modern client-side stacks.
- Simplified studio operational management workflows through intuitive UI designs.

Kos Lievi Web Platform | kos-lievi.vercel.app**Jun 2026**

- Engineered a responsive boarding house catalog web application utilizing React.js and Tailwind CSS frameworks.
- Implemented highly responsive layouts and modern UI design configurations to optimize mobile-to-desktop navigation.

EDUCATION

Bachelor of Science in Informatics Engineering | Universitas Dian Nuswantoro (UDINUS)

2025 – Present (Expected Graduation: 2029)

- Relevant Coursework: Data Structures, Algorithmic Operations, Web Dev, Software Engineering.

High School | SMA Negeri 1 Batang

2022 – 2025

- Science Stream Major (MIPA).
- Active involvement in the student union (OSIS) specializing in Information and Communications Technology (ICT) workflows.
